Mutual Research Collaboration Letter

Date: 01/03/2012

To,
Dr. Raghvendra S. Dubey
Swarnandhra College of Engineering & Technology
Seetharampuram, Narsapur (A.P.)

Ref: Your Research Collaboration Letter.

Dear Dr. Raghvendra,

I am impressed after visiting your research laboratory, especially the well-established cleanroom facility.

It is pleased to welcome you for the research collaboration in the mutual interest.

You can send your college faculty to carry out research work at NMU as, and when required, however, we can provide the access of PECVD, Flame Hydrolysis Unit, Lithography Unit, and the few measurement units like PL, FTIR etc. Recently, we have procured Cadence Tools and Keithley I-V/C-V meter, which can also be utilized ECE/EEE faculties.

Furthermore, other characterization facilities like FESEM, XRD, DSC etc. are now centralized and monitored by UDCT Department. In this view, I suggest you collaborate with Dr. Mishra, UDCT Director, in this regard.

Thank you for your interest, and have a good time ahead.

Sincerely yours,

(Dr. D. K. Gautam)
Professor and Head
Department of Electronics
